

Greetings from Data Security Council of India and NCETIS, National Centre of Excellence in Technology for internal security, IIT Bombay!

National Centre of Excellence for Cybersecurity Technology Development and Product Entrepreneurship, a joint initiative of DSCI and MeitY and **National Center of Excellence in Technology for Internal Security, NCETIS**, a joint initiative between MeitY and IIT Bombay are planning an event, to showcase Cybersecurity R&D and IPs at Mumbai on 21st & 22nd Sept 2022.

The idea behind the roadshow is to increase awareness of the research and technology developed, help the researchers to explore the possibilities of industry partnership and collaboration, find avenues of productization and commercialization of IPs, and look for future opportunities for R&D. This will be carried out at both the regional and national levels to bring all the Cybersecurity Researchers in the country together and connect them with various stakeholders in the ecosystem, towards the objectives of Technology productization/Commercialization.

We are also hosting a paper and poster competition on this occasion. Link for the same is given below:
