

The session was conducted on online platform (Microsoft teams). The guest speaker for the day - Ar. Aditi Lanke is an expert in Solar passive architecture, she is working as associate professor at Bharti Vidyapeeth college of Architecture, Pune. She is also a member of various prestigious organizations such as MEDA, ECBC, Pune Biennale. Ar. Aditi Lanke gave the brief introduction on what passive architecture is, various terminologies used for passive architecture such as climate responsive architecture, green architecture, sustainable architecture, etc.

The lecture helped the students to understand the basics of solar passive architecture. It also gave them the knowledge of climate analysis tools and references and books related to passive architecture.
