

World Architecture Day celebration

World Architecture Day celebration was organized by Department of Architecture. It was an online event conducted through Microsoft teams, to remind the world of its collective responsibility of architects in designing our future cities and settlements.

This initiative was created by the International Union of Architects (UIA) in 1985, and World architecture day is celebrated on the first Monday of October. World Architecture Day was celebrated by Department of Architecture in online mode on 4th October 2021.

An Expert Talk was conducted by Alumni of the Department of Architecture Ar. Tina Dharamsey. The event witnessed around 90 participants, respected teachers and alumni from the department.

Ar. Tina Dharamsey has completed her Bachelors from Department of Architecture MIT. Currently working as a production designer she has setup her own firm named Abstract Designers and has successfully completed around two decades of creating the world we would love to see as per the director's vision.
